Company Profile

Shenzhen Sparky Technology Co.,LTD is founded in 2018 and specialized in Voice translation products and wireless communication products.

We have over 6 years selling history for our voice translation products due to STABLE language platform. And now our language platform can do recognition and translation customization as well.

We have strong R&D capability to provide customized solutions. Engineers formerly in ZTE have rich experience to do projects for Uniden / Siyata mobile in Qualcomm platform.

SparkyTech has invested a lot of effort in research and development, obtaining several invention patents, utility model patents, and appearance patents. Our main products include AI translator machine, AI scanning and translating Pen, Voice recorder and translator, education tablets PC, Rugged Tablets PC, body camera and ODM projects like vehicle phones.

These products have obtained multiple certifications such as CCC, CE, FCC, ROHS, TELEC, JATE etc. Our products are exported to multiple countries such as the Americas, Europe, the Middle East, and Southeast Asia.

We take integrity as the cornerstone of our business operations, providing qualified products with professional pre-sales and fast after-sales services.

For most of our products, we also provide small MOQ and flexible customization service to support our partner can develop their business with small cost.

Welcome your OEM and ODM business!
